

WASTEPACK™ 1.6 CUBIC YARD BAG

Enco's premier DOT/UN approved cubic yard bag is the simple answer to today's complex solid hazardous waste disposal.

The WastePack™ 1.6 is manufactured from heavy-duty coated woven material. Double-wall corrugated inserts provide rigidity and make the bag self-standing. The WastePack™ 1.6 is rated for 3000 lbs.

Ideal for hazardous and non-hazardous waste streams including contaminated soils, plating sludge, asbestos and lead containing materials, contaminated PPE and many more applications.

DOT/UN APPROVED WASTEPACK™ 1.6 SPECIFICATIONS
