

For Release June 2010

Oil Sorbent Boom Production

Plaistow, NH – Enco Industries, Inc., SpillCon™ Solutions Division is pleased to announce increased production capacity for our high performance Oil Specific Absorbent Boom available for response and clean-up efforts in the Gulf Coast. Additional manufacturing capabilities have gone on line, significantly reducing lead times for truckload quantities of these hydrocarbon absorbing booms.

Our Oil Specified Sorbent Booms are available in 5” & 8” diameter styles in 10’ lengths. All boom is manufactured in the USA in the Gulf Coast Region.

About Enco Industries SpillCon™: Enco Industries is a leading supplier of integrated supply chain solutions for industrial, environmental, and government agencies. Enco Industries SpillCon™ Solutions Division is a leading small business manufacturer and supplier of high performance sorbent products to Marine, Environmental, Industrial and Government customers.
